# TRIANGLE

by Mac Barnett and Jon Klassen

Triangle and Square are always playing sneaky tricks on each other. Will they play a sneaky trick on you? Find all the pairs by matching the Triangles and Squares in column A to the Triangles and Squares in column B.

**A**

**B**

# TRIANGLE

by Mac Barnett and Jon Klassen

When Triangle visits Square, he walks past small, medium, and big triangles, shapes with no names, and big, medium, and small squares. Help Triangle navigate his way through this maze to get to Square's house.
